Forward-Looking Statement

- **Forward-Looking Statement** This presentation contains certain statements that may constitute forward-looking information under applicable securities laws. All statements, other than those of historical fact, which address activities, events, outcomes, results, developments, performance or achievements that C3 Metals anticipates or expects may or will occur in the future (in whole or in part) should be considered forward-looking information. In some cases, forward-looking information is identified by the use of terms and phrases such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and similar terms and phrases, including references to assumptions. Such information may involve, but is not limited to, comments with respect to strategies, expectations, planned operations or future actions. These forward-looking statements are based on currently available competitive, financial and economic data and operating plans as of the date of this presentation but are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements or industry results to be materially different from those expressed or implied by such forward-looking information. Such factors are based on information currently available to C3 Metals, including information obtained from third-party industry analysts and other third-party sources, and are based on management’s current expectations regarding future growth, results of operations, future capital (including the amount, nature and sources of funding thereof) and expenditures. The forward-looking information contained in this presentation is expressly qualified by this cautionary statement
- A number of risks, uncertainties and other factors could cause actual results to differ materially from the results discussed in the forward-looking information, including, but not limited to, the following: risks associated with reliance on key personnel; financial health of C3 Metals’ and its related cash flows; general industry and market conditions and growth rates; failure to realize anticipated benefits of acquisitions and monetization opportunities; legislative and regulatory developments; reliance on major customers; general economic conditions and levels of economic activity including interest rate and currency exchange rate fluctuation; current global financial conditions; failure to realize on growth initiatives; financing risks; degree of competition in the industry; risks associated with the development of projects; changes in employee relations; control of costs and expenses including inability to repay maturing debt and to fund capital expenditures and future acquisitions and dependence on information systems and technology; retaining main customers risk.
- Forward-looking information reflects C3 Metals’ current beliefs and is based on information currently available to C3 Metals and on assumptions it believes to be reasonable. In some instances, material factors or assumptions are discussed in this presentation in connection with statements containing forward-looking information. Such material factors and assumptions include, but are not limited to: the Company’s ability to execute on its business plan; the continued success of business development activities; new assets or projects will continue to be added to the Company’s portfolio. The forward-looking information is made as of the date of this presentation and C3 Metals assumes no obligation to update or revise such information to reflect new events or circumstances, except as may be required by applicable law. Because of the risks, uncertainties and assumptions contained herein, prospective investors should not read forward-looking information as guarantees of future performance or results and should not place undue reliance on forward-looking information. Nothing in this presentation is, or should be relied upon as, a promise or representation as to the future.
- There is no warranty or guarantee given by any person as to any forecast or financial outlook contained herein. In addition, such forecasts and financial outlooks reflect various assumptions by C3 Metals. Although C3 Metals believes these assumptions to be reasonable, C3 Metals can give no assurance that such assumptions will prove to be correct and readers are cautioned that such assumptions may prove to be incorrect. The actual results achieved will vary from the forecast or financial outlook results and the variations may be material. There is no guarantee that any forecasts or financial outlooks will be achieved in whole or in part. To the extent any forward-looking statements contain forecasts or financial outlooks, such information is being provided solely to enable a reader to assess C3 Metals’ financial condition and its operational history and experience in the resource exploration industry. Readers are cautioned that this information may be not appropriate for any other purpose, including investment decisions.
- Industry and other statistical data presented in this presentation, except where otherwise noted, have been compiled from sources and participants which, although not independently verified by C3 Metals, are considered by C3 Metals to be reliable sources of information. References in this presentation to research reports or to articles and publications should be not construed as depicting the complete findings of the entire referenced report or article.
- Data for the Jasperoide Project was retrieved from Hochschild Mining’s database and internal reports. Hochschild was operator on the Jasperoide project from 2011 to 2012 and completed 2 drill Programs. C3 Metals had access to the entire drill database and was confident that the reporting of the information was to industry standard practice. The Company has not completed sufficient work to verify all the historic information on the Jasperoide Project.
- The Qualified Person responsible for the technical information in this presentation is Stephen Hughes P. Geo., C3 Metals’ Vice President Exploration, who has approved the technical information included herein. Any reference to historical estimates and resources should not be relied upon. These are not current and a Q.P. has not done sufficient work to classify these historical estimate and C3 Metals Inc. is not treating the historical estimate as a current resource estimate.

JAMAICAN MINERAL SECTOR IS SEEKING INVESTMENT IN METALLIC MINERALS

The screenshot shows the website for the Mines and Geology Division. At the top left is the logo of the division, which includes a pickaxe and a hammer. The header text reads "MINES AND GEOLOGY DIVISION". Below the header, there is a paragraph stating: "The Economic Geology Unit is responsible for the identification and evaluation of Jamaica's mineral resources as well as making recommendation for their economic exploitation." This is followed by "The activities of this unit includes:" and "Metallic Minerals". Under "Metallic Minerals", it says "The sub-units activities include:" followed by a list of three bullet points. The first bullet point is highlighted with a green box and has a line pointing to a callout box on the right. The second bullet point is also highlighted with a green box. The third bullet point is highlighted with a green box and has a line pointing to another callout box on the right. At the bottom of the page, it says "Industrial Minerals".

MINES AND GEOLOGY DIVISION

The Economic Geology Unit is responsible for the identification and evaluation of Jamaica's mineral resources as well as making recommendation for their economic exploitation.

The activities of this unit includes:

Metallic Minerals

The sub-units activities include:

- The identification and evaluation of the precious and base metal potential (gold(Au), silver(Ag), copper(Cu), nickel(Ni), lead (Pb)) of the island.
- To generate a comprehensive metallic mineral database of the island with emphasis on its application to mining and environmental management, epidemiology and agriculture.
- To promote and encourage investment in non-bauxite metallic minerals as a means of diversifying the minerals sector.

Industrial Minerals

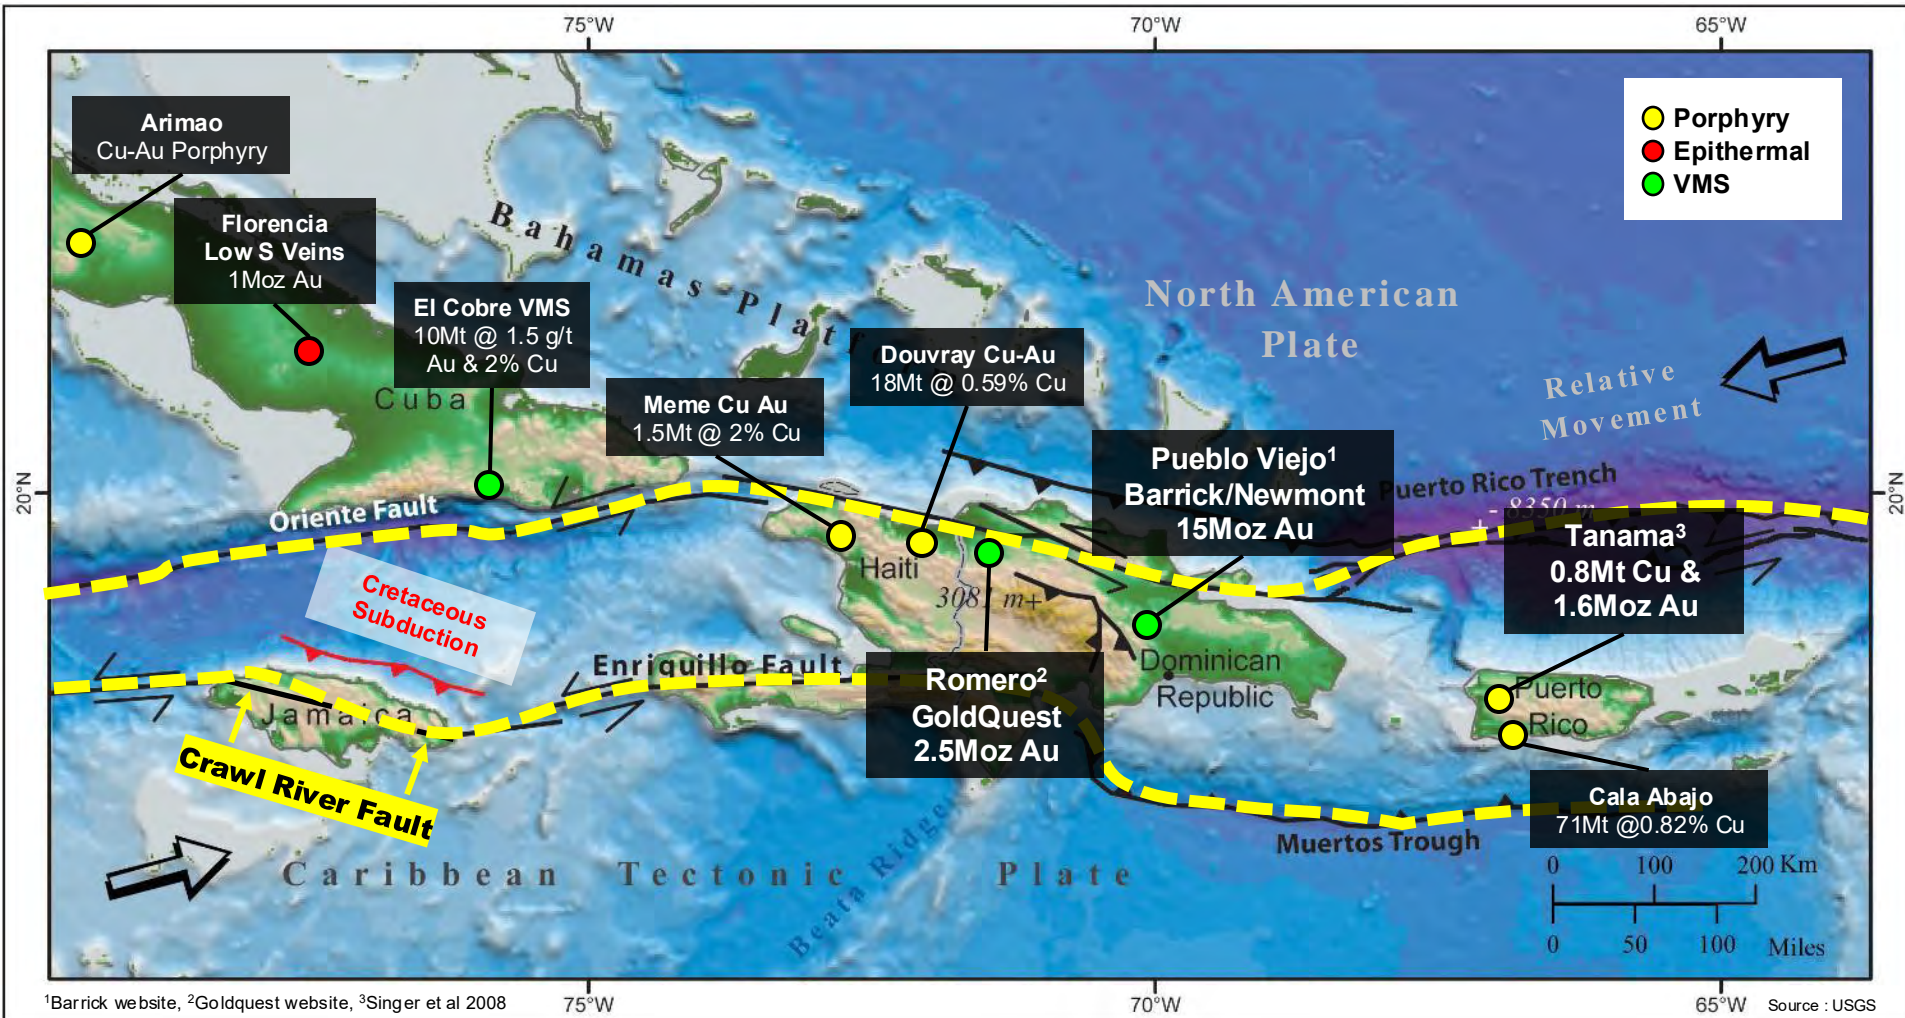

MINES AND GEOLOGY DIVISION OF THE MINISTRY OF AGRICULTURE, FISHERIES AND MINES

“The identification and evaluation of the precious and base metal potential gold, copper on the island.

“To promote and encourage investment in non-bauxite metallic minerals as a means of diversifying the minerals sector.”

Stamford Hill and Charging Cross Mined in 1800s

62 Adits & Multiple Shafts Sunk at Bellas Gate project

Adit to the 2nd Level at Stamford Mine

Closed adit

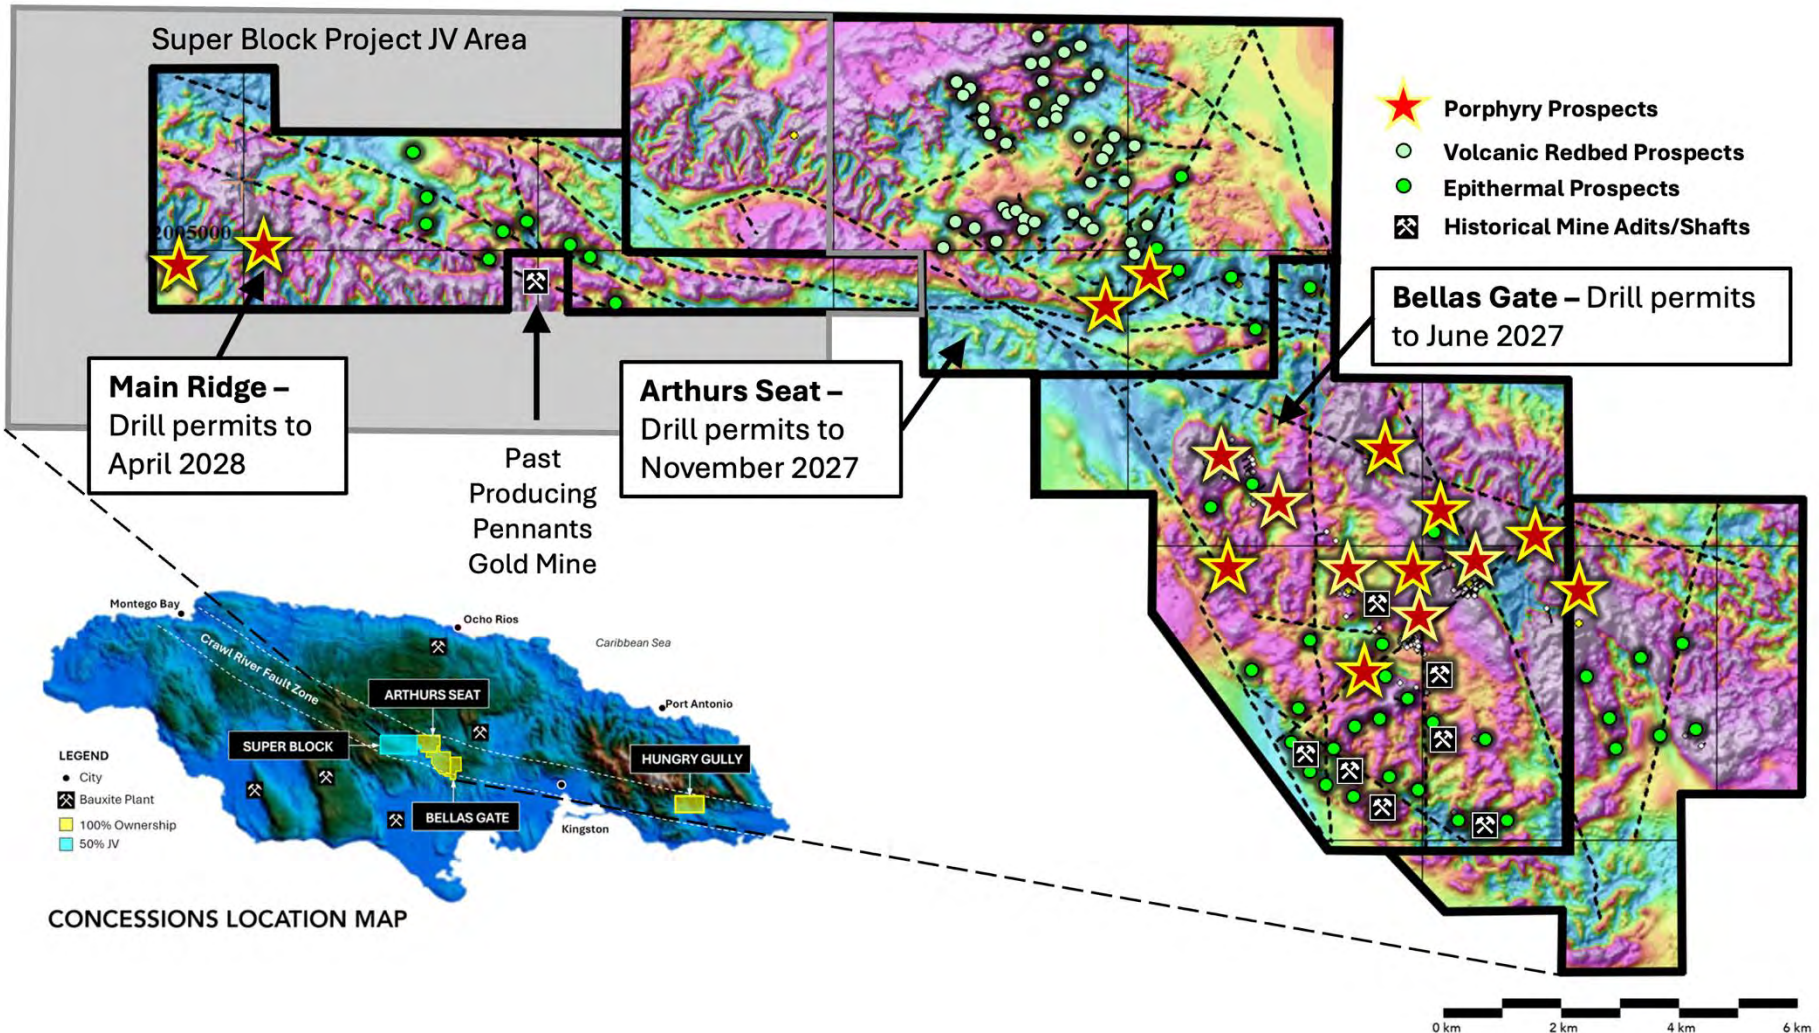

Old mine workings at the Stamford Mine, Bellas Gate SEPL

- **British mined high-grade epithermal copper-gold veins in the 1800s**
- Stamford Hill and Charging Cross veins mined during the 1850s.
- Operated until 1863
- Reports indicate between 1854-1857, 188 tonnes of copper was shipped to England grading 14.3% Cu.
- **Adits between 0.5km to 3.0km from 12 porphyry targets**

Pennants Gold Mine (2002 – 2004) – 50% C3 Metals

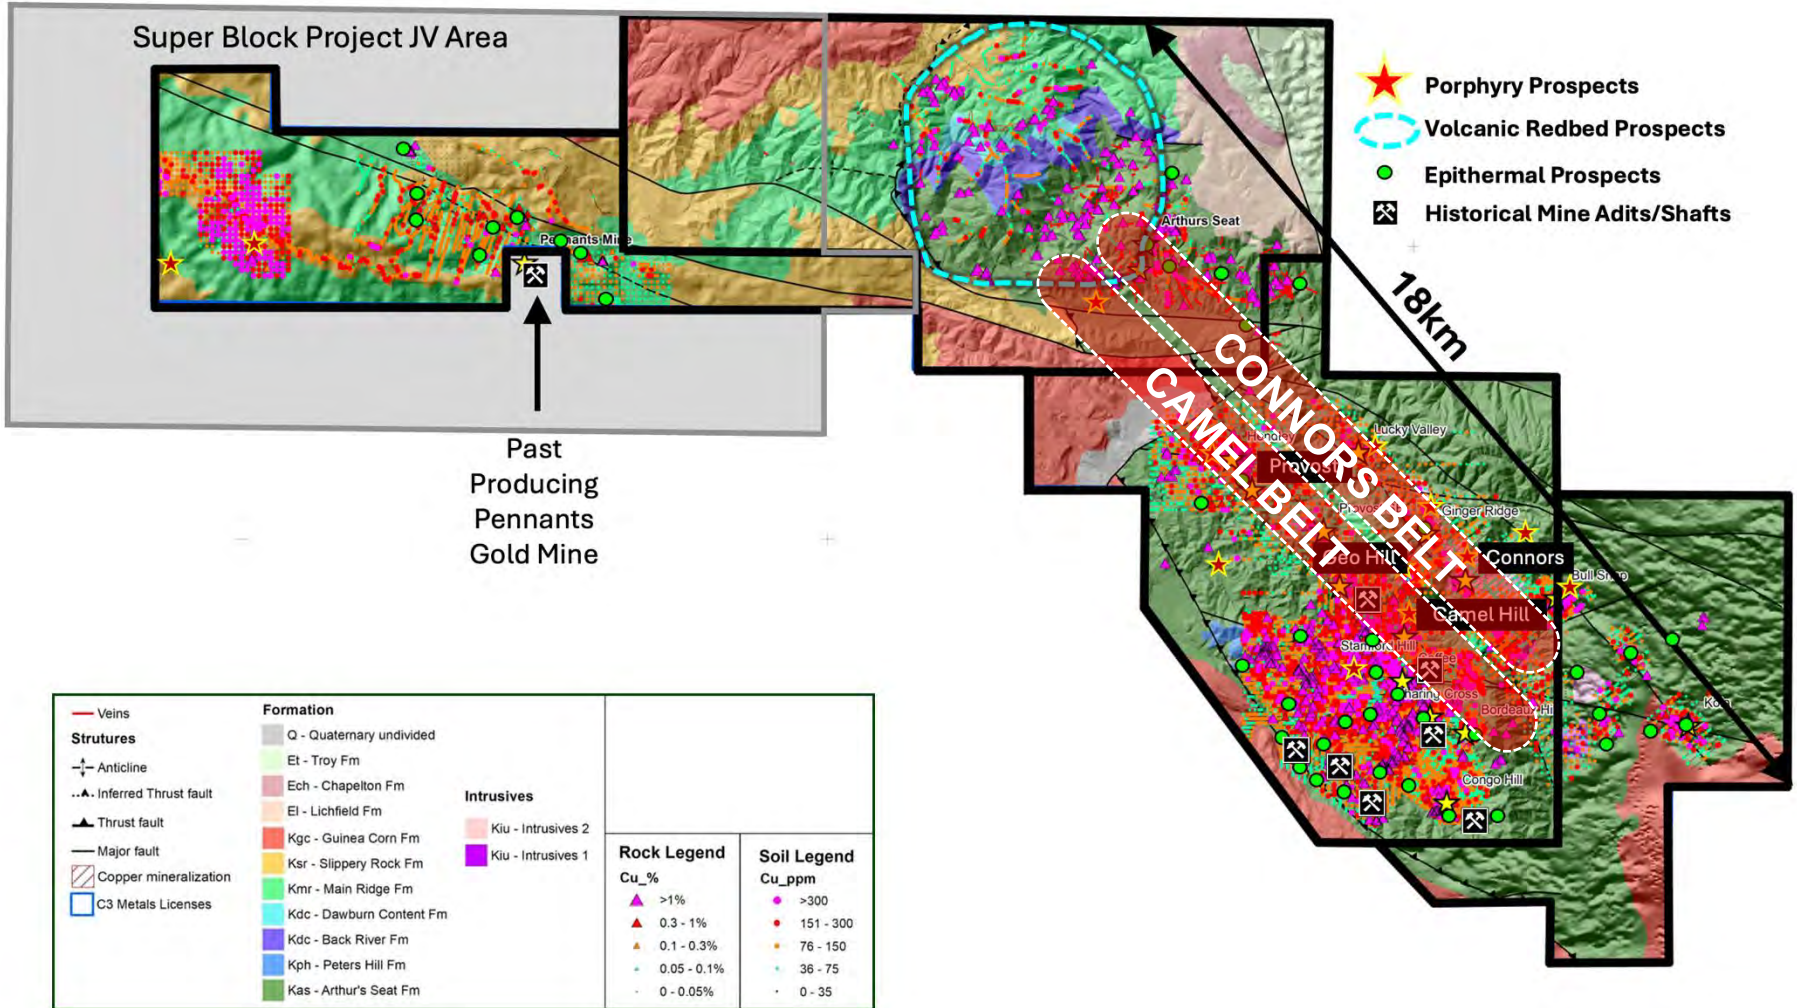

First Gold Deposit in Jamaica to be put into Production

- **BHP (1992)** defined a 3km gold in soil anomaly, discovered Pennants epithermal veins system
- **Orvana (1995-1998)** reported bonanza gold grades in Pennants drill holes, including
 - 1.7m @ 429.78g/t gold in MD53
 - 3.8m @ 56.41g/t gold in MD60
 - 4.6m @ 25.63g/t gold in MD1
 - 9.2m @ 18.36g/t gold in MD12
- Non-compliant NI 43-101 historical resource reported at **75,500t @ 20.4 g/t gold**
- **AusJAM** constructed Pennants in 2002, mine development costs reported at USD 7.5M
- **Pennants Mine closed after 2-years**, due to low gold price and numerous operations issues, reported to have extracted 16,000oz

Filo del Sol – 20 Years & Deep Geophysics to Find It

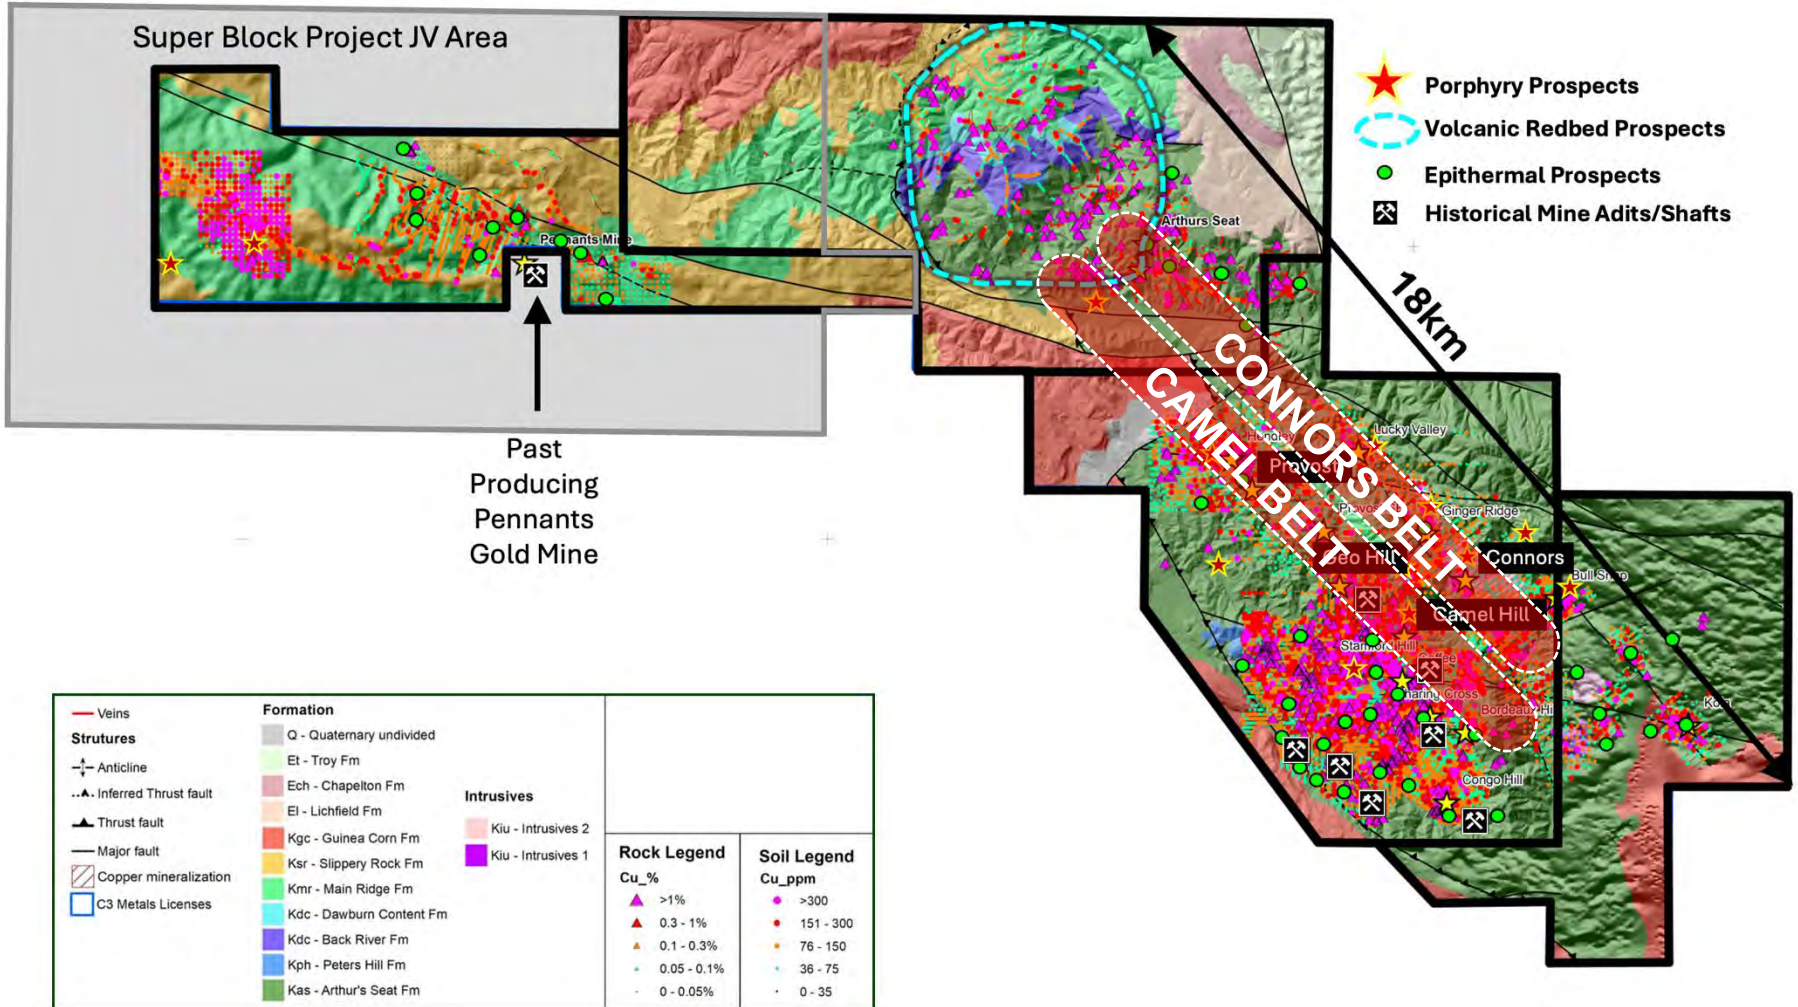

BELLAS GATE: HIGH GRADE CORE AT DEPTH?

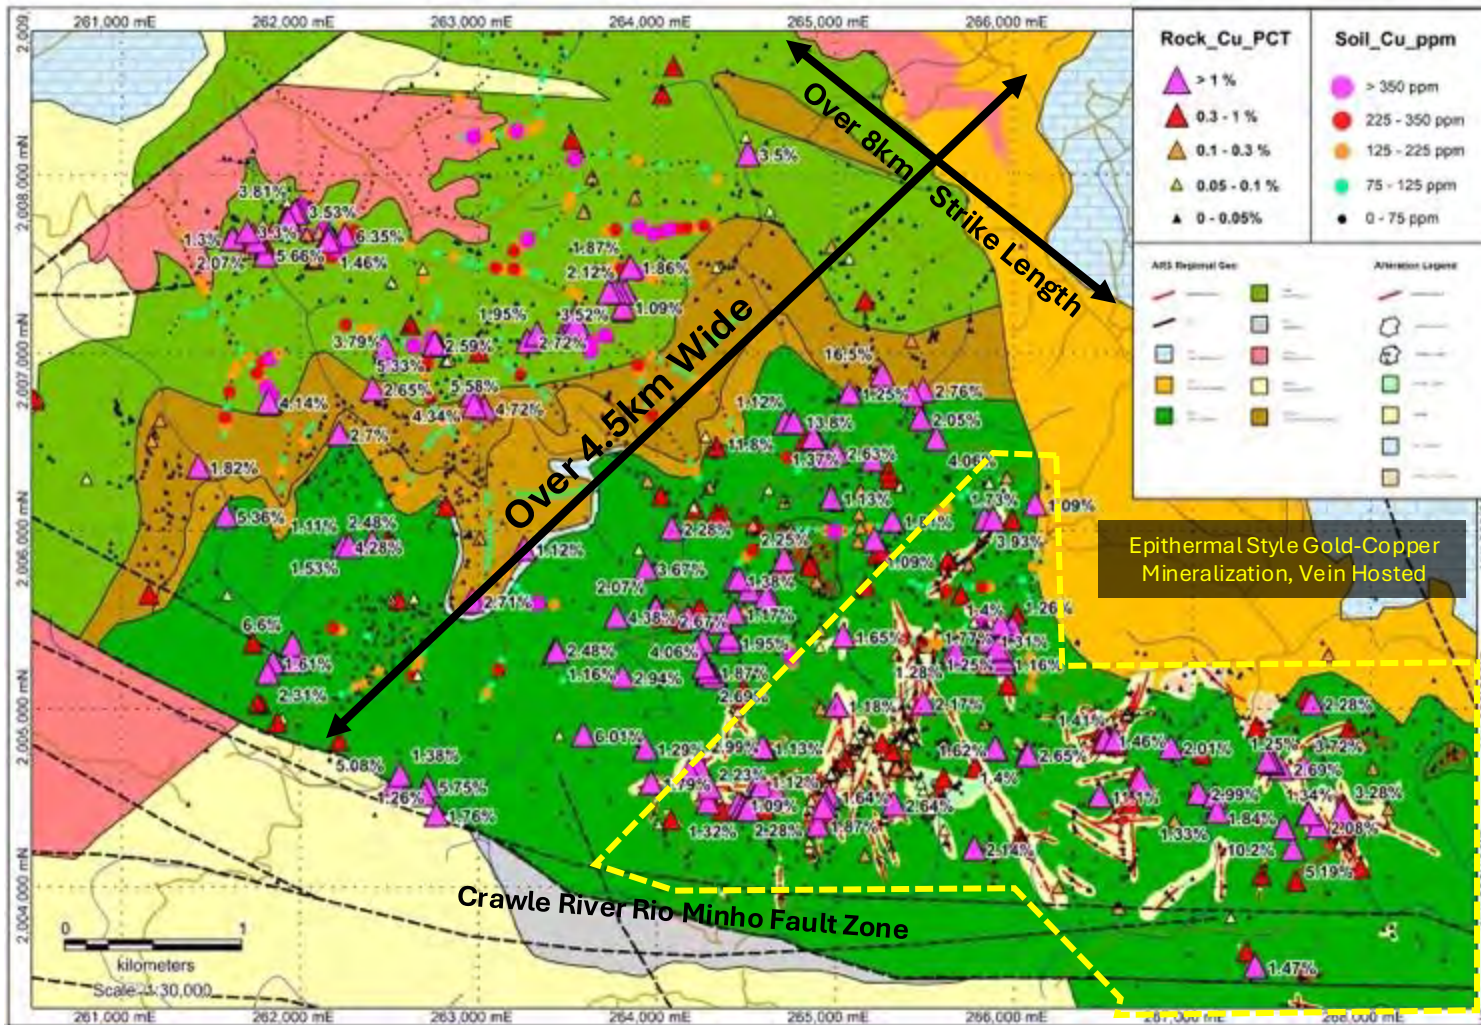

- Average drill depth <400m
- Multiple 700m holes ending in Cu-Au mineralization
- Geophysics supports system connected at depth
- Requires 1,000-1,500m holes to test high grade core of system
- Big system, capital intensive, evaluating strategic partnerships
